

**We truly love the season of Christmas  
Wishing you a Happy New Year 2025**

**Isaiah 61:2**

*To proclaim the acceptable year of the Lord  
[the year of His favour] 2025.*

We recently built a beautiful chapel as an extension of our garage. Our Lord is so gracious that we can sense His Presence there.

What surprised us the most is where the money came from. For it was a very expensive project. Finances came miraculously from individuals and organisations who had no idea what we were building. So at times we stand in awe and this building miracle speaks about His authenticity.

The Prophets are graciously warning us to commence safeguarding our families and friends. This can only be achieved through intercession and prayer which this building has enabled us to carry out.

We experienced something wonderful this Summer, 2024. We travelled to and stayed in a former manse in Abergavenny, East Wales. For four weeks we were saturated by the Presence of the Holy Spirit. Why so - because of the history of the manse. It was in the kitchen of this manse that many great men and women of God came and sought the Lord and interceded within this building.

Our dear friend Stella Price has written some details about the history of the manse. She wrote a biography of Robert Jermain Thomas, the missionary who was martyred in Korea. Robert's parents lived in this manse and his father was a minister here from 1848 until he died. Their son Robert Jermain left for China in 1863 and was martyred near the border of North Korea. A powerful moving story which is worth a Google search.
